Rethink your space. Everyday.

The Project series is functional, modular, and made to move. It facilitates a new way of working, helping people visualise their thinking and create collaboratively.

We know space to think is in high demand. With the Project series, we’ve thought about the details so you can think about what matters.

Features include:
- Easily movable units on industrial strength wheels
- Functional, highly considered design
- A peg and board system that quickly multiplies wall space
- Customisable storage space
- High quality materials
- Australasian design and manufacture
- Fast, easy assembly
- Minimal health and safety concerns with light-weight materials for the boards

Available in whiteboard and cardboard finishes.
Designed to work around you

The Project series caters to a variety of needs, allowing you to assemble and reassemble the perfect thinking environment.

Designed, prototyped and trialled in workshop environments, the Project series gives you space to think — receding into the background and allowing you to focus on what matters.

Video-conferencing and presentations sorted

A workpoint for one

No need to go far for your tea and coffee
Project series components are built to last. The robust, considered design will withstand repeated reassembly and countless moves.

Lightweight
The unique, cross-laminated cardboard construction of the boards creates a highly durable, yet lightweight product — effortless to move and with minimal health and safety concerns.

Plenty of storage
Storage space is always in high demand. With the Project series, there’s more storage space to go around, freeing up head space.

Multiply wall space
Turn one wall space into a whole lot more with the Project board and peg system. Or better yet, create walls where there weren’t any previously.

Made for each other
All units within the Project series are modular, intentionally designed to fit together seamlessly.

Plug-and-play
Power points and USB charging points can be added to units, making it easy to connect technology such as video-conferencing equipment.
One system.
Countless possibilities.
**Project boards**

Dimensions: 1100w x 1700h
Available with cardboard, whiteboard or Autex Cube™ finishes.

* Whiteboards should be wiped with a damp or dry cloth only. Chemicals should not be used on the surface.

**Project pegs**

Dimensions: 25mm diameter 120mm depth
Mountable directly onto walls or indirectly via a rail. Spaced to suit Project board dimensions. Multiple finishes available.

**Project movable storage wall**

Dimensions: 1200w x 1930h x 500d
Pegs: 25mm diameter 120mm depth
Industrial castors: 75mm diameter
Shelves:
6x movable shelves
1x fixed middle shelf

**Project movable TV unit**

Dimensions: 1200w x 1930h x 600d
Shelf: 1050mm high
Includes:
5x reconfigurable shelves
1x 240v power bank
Hidden cable space
TV and mounting bracket not included, but can be installed if requested.
Industrial castors: 75mm diameter

**Project table**

Dimensions: 1850w x 750h x 775d
Industrial castors: 75mm diameter

**Project table cluster**

Dimensions: 3100w x 750h x 1650d
Industrial castors: 75mm diameter

**Project movable kitchen unit**

Option 1:
Includes drawers and shelves 1200w x 1050h x 600d
6x reconfigurable shelves

Option 2:
Includes space for rubbish bins 1200w x 1050h x 600d
3x 360mm wide slots
Industrial castors: 75mm diameter

- **Charcoal Fox**
- **Black**
- **Natural Walnut**
- **Dark Walnut**
- **Birchlam**
We believe that high-performing spaces enable high-performing people.

Expand the possibilities

Pair Project series furniture with the wide variety of accessories available from Aspect to further increase the utility of the range.

We place a person’s comfort and ease-of-use at the heart of every product and system we create. Aspect Furniture designers and workplace specialists help you create a complete office furniture solution that will inspire and support people in their work every day.

Back in 1982, from a small factory in Auckland, Aspect founder and CEO Richard Simmons made his very first furniture prototypes. Driven by a passion for craft and beautiful engineering, he steadily grew the business and is joined today by his three sons and an expert team of designers, engineers and workplace specialists across New Zealand and Australia. Today, Aspect makes collections at the leading edge of international product design, technology and workplace best practice.

Our focus on crafted, fully resolved commercial furniture means Aspect collections are trusted by some of the largest public and private organisations around Australasia. With nearly 40 years’ experience designing and manufacturing collections for the modern workplace, our office furniture has a reputation for being robust, ergonomic and comfortable throughout the working day.

We make over 70 per cent of our product range in New Zealand and Australia for true control over design, quality, customisation and lead times. You receive products quickly and reliably from a quality-assured environment. In addition to speed and flexibility, local manufacturing also creates a smaller environmental footprint.

Our team of product designers and workplace specialists help you define and select a furniture solution to meet your workplace aspirations and project budget using durable and environmentally sound products.

Direct access to our furniture designers means greater flexibility and control over your solution, as we work from our collections, adapt existing products or design new components.

Aspect Furniture operates ethical and sustainable business practices. We have certification from Good Environmental Choice Australia (GECA) and Environmental Choice New Zealand (ECNZ), and our products are aligned to the Green Star rating tool. Independent certifiers regularly audit our premises under the ISO:9001 and ISO:14001 quality and environmental management systems. Similarly, the health and safety of our employees is vital to our success, and we are certified to the globally recognised AS/NZS 4801 occupational health and safety standard.
