Arnold  
Circus Stool  
Specification  
Sheet.

---

An icon of modern design that combines form, function and sustainability.

Arnold Circus is situated in the heart of Shoreditch, East London, UK. Built on rubble of the old slums, it belongs to the Boundary Estate, London's first council housing project.

The Arnold Circus Stool, designed by Martino Gamper, is part of the regeneration project.

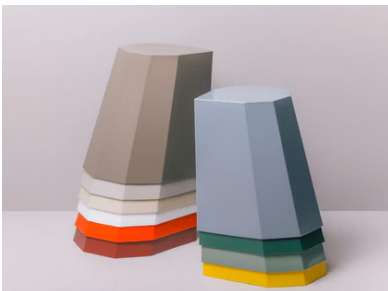

The (rotation moulded polyethylene plastic) stool is used as the official seating for annual events, such as: circus picnics, brass band concerts, carrom tournaments, flower plantings and music and film events.

# Martino Gamper.

Martino Gamper (b. 1971, Merano, Italy) lives and works in London. Gamper moved to London in 1997 to study at the Royal College of Art and has lived in the city ever since.

Working across design and art venues, Gamper engages in a variety of projects from exhibition design, interior design, one-off commissions and the design of mass-produced products for the cutting edge of the international furniture industry.

Gamper has a thorough understanding of design history embedded in the process of making. He knows that to craft a joint in this way or that is not simply a practical choice but one laden with meaning.
