Kusabi
Specification
Sheet.

Kusabi is a robust table inspired by the simplicity of traditional Japanese craftsmanship.

The Kusabi table has a simple, carefully considered aesthetic, where form meets functionality. Crafted vertical timber forms are tightly connected by strong horizontal beams.

Inspired by Japanese minimalism and traditional craftsmanship, the Kusabi table by Aspect is clean, uncluttered and spacious. The large-format solid timber slab design makes this the perfect table for hosting informal meetings and collaborating in your workplace.

Kusabi's sustainable flat-pack design allows for ease of transport and assembly on site.

Kusabi has been designed with specific attention to functional and aesthetic details. The leg to footrail connection uses a traditional technique known as a 'tusk tenon', which removes the use of glued joints and allows for easy assembly.

Seamless power and data integration is a key factor in the design. A cable reticulation cavity concealed within the leg runs up to a centrally mounted power box, adding functionality by providing user integration and connectivity.

Aspect Design.

As furniture designers, our user-centric approach places people at the heart of every decision we make.

Applying 40+ years' of experience and craftsmanship, we create furniture to inspire and support people in their work every day. Manufacturing locally, and with full in-house design capability, we collaborate with interior designers, architects and clients to tailor-make environments.

We're here to support you in creating workplaces that encourage productivity, creativity and collaboration. High-performing spaces where high-performing people are empowered to do their best work.
