OKamura

Work Carrier
Specification
Sheet.

With its gently curved lines, the Work Carrier harmonises with the working environment and creates a relaxing feeling of togetherness.

To meet the demands of increasingly diverse working styles, the Work Carrier office furniture series aims to create a flexible environment in which furniture and humans can interact freely. The design deliberately breaks the standardised thinking of linear modules typically used in the workplace.

The balanced design intentionally avoids corners and edges. It is lightweight and can be easily adapted to different workplace conditions, providing break-out spaces away from the working desk.

Okamura.

Okamura provides products and services that create functional and comfortable spaces, from offices that accommodate diverse working styles to educational institutions where people connect, cultural facilities including theaters and museums, and specialized facilities for research, healthcare and the elderly. Okamura is driven by the mission to contribute to society by creating environments where people can thrive with rich ideas and reliable quality.

Okamura are focused on improving functionality, safety, durability and reliability of the products by continually developing a vision of how they should be.
