Shift
Specification
Sheet.

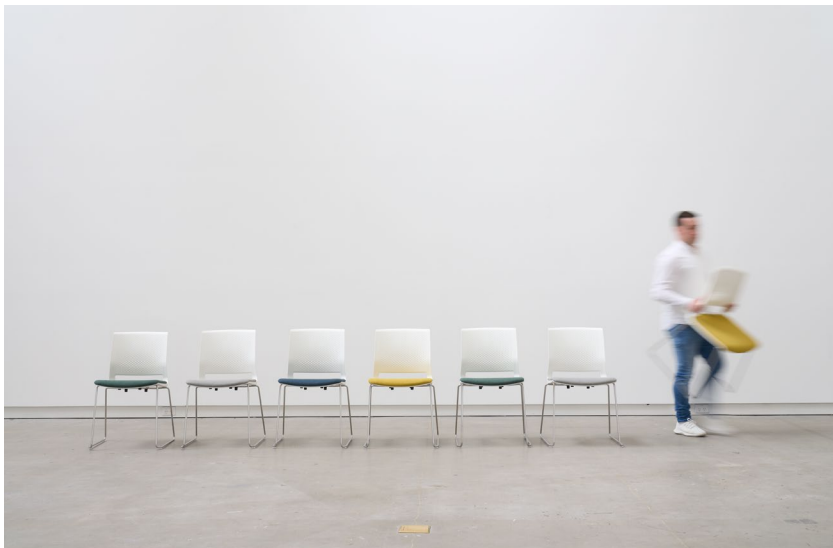

The Shift range is a collection of chairs and stools that combine comfort, sturdiness and practicality.

Shift is highly functional, versatile and long-lasting – all of the qualities expected of a chair dedicated to community use. Featuring a slim profile design and an unassuming steel frame base, the Shift chair can be easily integrated into a range of commercial interiors.

Shift is stackable and can be efficiently stored and easily relocated. It is the perfect solution for large gatherings or multipurpose settings that require lightweight and durable seating.

The Shift chair is the perfect solution for large gatherings or multipurpose settings that require lightweight and durable seating.

The shell, available in multiple colours, is made of fibre-glass filled polypropylene and is produced with a perforated backrest. The seat can be optionally upholstered.

Shift is available with 4-leg, sled or 4-leg with castors base options. The frames are made of curved welded tubular steel, 20mm in the 4-leg versions, and 12mm wire in the sled version.

Shift is also available in kitchen and bar stool variations, with 4-leg and sled frame options.

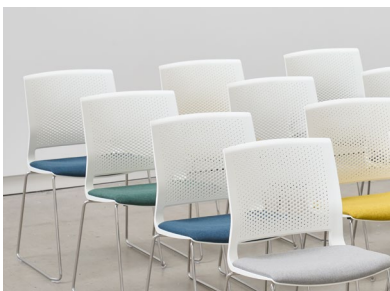

Alegre Design.

Alegre Design are an innovative design company committed to bringing value to people through their work. Known for their creative and forward-thinking approach, they are constantly seeking new perspectives and ideas to redefine services, products and experiences. With their intention to help inspire change through design.

Having worked together for over 20 years across several industries, Andres Baldoví and Marcelo Alegre are equipped with intuition, perspective and an understanding of culture that allows them to develop meaningful products and services within a global context.

Alegre strives to create realistic solutions for the product's lifespan: from the production process itself, the sustainability of its manufacturing, the use efficiency, the user interface or its environmentally-friendly materials.
