

Muse Pod.

aspect

Let your ideas
speak louder.

In today's open-plan and collaborative workspaces, privacy is in high demand. The need for moments of seclusion, whether for making important calls or hosting meetings, is more pressing than ever.

Muse acoustic pods offer a fast and affordable solution to the shared space dilemma. Muse phone booths and meeting pods provide not only privacy but a well-ventilated, acoustic retreat designed for focused work and uninterrupted, meaningful conversations.

Muse Pod provides flexibility and efficiency, offering multiple sizes to accommodate both individual focus sessions and intimate meetings.

A seamless extension to your
work environment, installed in
just an hour.

Design details.

The Muse Pod collection offers integrated technology and power configurations to suit your requirements. Quality design and finishes result in an elegant and minimal product that complements any interior.

Rounded profile

A considered, rounded profile contributes to a timeless aesthetic.

Smart lighting sensor

Integrated motion sensor and curved lighting detail provide a warm white, soft light source.

Wireless charging + power integration

Integrated power solutions with fast charging USB A+C ports keep you connected and powered up.

Dual air circulation system

Quality ventilation maintains fresh, temperature-regulated air for ultimate comfort and productivity.

Considered details

The slimline ergonomic door handle and soft closing door enhance the user experience so you can focus on what matters.

Adjustable light source

Smooth touch control dial for adjusting lighting to your preferences or dimming your surroundings.

Acoustic performance

Internal fabric panels absorb sound and reduce reverberation so you can talk in private with clear, quality sound.

Modular structure

Flat-pack design consisting of six parts allows for quick assembly and disassembly, essential for evolving workplace needs.

We believe that high-performing spaces enable high-performing people.

We place a person's comfort and ease-of-use at the heart of every product and system we create. Aspect designers and workplace specialists help you create a complete office furniture solution that will inspire and support people in their work every day.

Back in 1982, from a small factory in Auckland, Aspect founder and CEO Richard Simmons made his very first furniture prototypes. Driven by a passion for craft and beautiful engineering, he steadily grew the business and is joined today by his three sons and an expert team of designers, engineers and workplace specialists across New Zealand and Australia. Today, Aspect makes collections at the leading edge of international product design, technology, and workplace best practice.

Our focus on crafted, fully resolved commercial furniture means Aspect collections are trusted by some of the largest public and private organisations around Australasia. With over 40 years' experience designing and manufacturing collections for the modern workplace, our office furniture has a reputation for being robust, ergonomic, and comfortable throughout the working day.

We make over 70 per cent of our product range in New Zealand and Australia for true control over design, quality, customisation, and lead times. You receive products quickly and reliably from a quality-assured environment. In addition to speed and

flexibility, local manufacturing also creates a smaller environmental footprint.

Our team of product designers and workplace specialists help you define and select a furniture solution to meet your workplace aspirations and project budget using durable and environmentally sound products.

Direct access to our furniture designers means greater flexibility and control over your solution, as we work from our collections, adapt existing products, or design new components.

Aspect Furniture operates ethical and sustainable business practices. Independent certifiers regularly audit our premises under the ISO 9001 and ISO 14001 quality and environmental management systems. Similarly, the health and safety of our employees is vital to our success, so we are certified to the globally recognised AS/NZS 4801 and ISO 45001 occupational health and safety standards.
