Installation

Please follow instructions below. Failure may cause serious damage to the product.

- Indoor use only.
- When placing alongside windows, use curtain or blind to avoid from direct sunlight.
- No outdoor or waterfront use.
- Avoid high temperature, high humidity, or extraordinary aridity.
- Avoid direct sunlight.
- Do not place on uneven floor.

For maintenance

- Regular maintenance is tips for long-life use.
- If found unstable due to loose bolts and screws, tighten them.
- For daily care, use a well-wrung soft cloth.
- For mesh and cushion parts, remove dust by tapping the cloth surface with brush or using vacuum cleaner.
- For stained part, use neutral detergent (1-3%) and completely remove detergent with dry soft cloth.
- Cushion part cannot be dry-cleaned so that replacing is recommended if exceptionally dirty.
- Do not place product under heater or air-conditioner exhausting high temperature air.
- Do not place product under heater or air-conditioner exhausting high temperature air.
Seat height adjustment
Lift up the lever right side of the seat. To raise, take off body weight from seat and pull up the lever. To lower, load on the seat and pull up the lever.
Seat depth adjustment

Lift up the lever under left side of the seat and slide the seat back and forth by holding seat with both hands.

Tilt fixing / Releasing

For fixing, push down the lever under left side of the seat. To release it, pull the lever up and then lean against the backrest.
Operation guide

Tilt tension adjustment
Located under center of the seat. Turning clockwise will increase tension, and turning counterclockwise will decrease tension.

Armrest adjustment
(Optional function)
- Push the lever under armpad to change the armrest height.
- The pad angles can be adjusted up to 20 degrees inward & outward, and also be adjusted up to 50mm forward & backward.
Attaching the adjustable armrests

1. Remove the armless caps using a flathead screwdriver, etc.
2. Fix the arms from the side using the supplied bolts (one bolt per side).
3. Make sure the attached parts do not rattle.
